

Release Notes
Managed Access Gateway

Version 7.7

Final Edition (November 1st , 2023)

This edition applies to the current release of Managed Access Gateway (MAG) and to all subsequent releases and modifications until otherwise indicated in new editions.

Enhancements and features

Items	Description	Case ID
1	We have added a secure access notification message or banner to the login page that provides privacy and security notices consistent with applicable laws, executive orders, directives, regulations, policies, standards, and guidelines.	MAG-7847
2	We have modified MAG to lock an account for 30 minutes after the user has 3 failed login attempts in a 15-minute period.	MAG-7848
3	We have made a slight update to the FIS revocation email which is sent out to an FIS Administrator when a user revokes their FIS certificates	MAG-7512
4	We have made a text change on the change password page used by a logged in user to change their password to display Change Password instead of Reset Password.	MAG-7903
5	We have made modifications to not require an FIS Admin to fill out the product and services section when rejecting an FIS subscription request.	MAG-7616

Closed Issues / Defects addressed in this release

Items	Description	Case ID
1	We have resolved the issue of broken links and the wrong instructions being displayed on the FIS renewal email.	MAG-6715
2	We have resolved the issue of a proofing complete email being sent to an Administrator after a user cancels out of the proofing process before completion. The proofing complete email is now sent only after the user completes the process.	MAG-7682
3	We have resolved the issue that prevented users from not being redirected back to the MAG password change tab after they initiate a password change.	MAG-7902
4	Directly accessing https://portalvs.exostar.com/idprov/accesslogin/LoginMain.faces will no longer function for MAG. Users will be redirected to the appropriate login page	MAG-7857

5	<p>Directly accessing https://portalvs.exostar.com/idprov/accesslogin/ShowPwdResetRqst.faces will no longer function for password resets to ensure compliance to our password policy.</p> <p>Please use the password reset functionality during account login or the self-password reset when logged in to your MAG account</p>	MAG-7857
---	--	----------

Known Issues

Items	Description	Case ID
1	When multiple search fields such as Exostar ID, Address, and DUNS Number are populated to limit the search results, organizations that match any of the provided fields are still returned.	MAG-5450
2	Reported Timeout Issues in the Adoption module.	MAG-6915

EXOSTAR
