

SCP-MOD Invoices – Buyer Quick Reference Guide April 2021

Copyright ©2021 Exostar LLC. All rights reserved.

Suppliers can create electronic invoices in SCP-MOD. The invoices reference orders that are already in SCP-MOD. The invoices are sent electronically to the buyer. Each invoice line represents one order line item. Invoices can only include line items from a single purchase order.

An invoice can be created against an order line that is in any order status, with the exception of **Archived** and **Rejected**.

Locate Invoice Information

To locate an existing invoice in the system:

- 1. Click the **Menu** drop-down, then hover your mouse over **Order Management** to display the submenu. Under the Invoice section, click **Search**.
- 2. Enter your search criteria.
 - Use asterisks * as wildcards for searching (e.g. *123*).
 - Searching is **case sensitive**.
 - You can search by Invoice Number, Order Number, or Item Number etc.
 - Using a comma with no spaces between multiple entries is an 'OR' statement. For example, (Buyer Item No. = *3*,*5*) will show all invoices with a 3 or a 5 in the buyer item number.

Archiving and Purging Invoices

Invoices transition to an Archived status in SCP-MOD after 180 days (or 90 days after it transitions to Rejected). See **Reject Invoice Status** section below for details.

Invoices in an Archived status will purge from SCP-MOD after 240 days.

Rejected Invoice Status

The Ministry of Defence can use SCP-MOD to communicate when an invoice is rejected. The supplier will receive an urgent email from <u>Procurement@exostar.com</u>, if they have an invoice that has been transitioned to the Rejected status.

How to Reject an Invoice

1. Login to SCP-MOD as a buyer role (BUser or BAdmin). The role will display towards the top of the screen under your username.

Min	istry of Defence	0	Margaret Pfisterer BAdmin: MOD DBS-UAT	
≡ Menu	★+ Add to Favorites			٠

2. Click the Menu drop-down, then hover your mouse over Order Management to display the sub-

menu. Under the Invoice section, click Search.

- 6. The status will now change to **Open**.

View Status of Invoice Orders

The **Invoiced Qty** on the invoice is linked back to the Quantity on the order. When the Invoiced Qty becomes equal or greater than the order's Quantity, that order line will automatically transition to a Closed state. A credit note or a rejected invoice would reduce the Invoiced Qty and also move the line back to its previous state.

On the Order Details page, the **Order Details** tab shows the following invoice information:

- **Invoiced Qty**: The total quantity that has been invoiced for each schedule line.
- Line Invoiced Qty: The total quantity that has been invoiced for each line (item).
- **Net Invoice Amt**: The total value (price X quantity) for each schedule line.
