**Export Control:**

Use of ForumPass involves the periodic download to your browser of the ForumPass E2E Encryption Applet ("the Applet"), which contains cryptographic software subject to U.S. export controls under the U.S. Export Administration Regulations ("EAR") and other U.S. laws.

Download recipients may not export (U.S. to foreign nation) or reexport (foreign nation to foreign nation) this software without a license or other authorization (such as a license exception) pursuant to the EAR. The Applet is authorized for export or reexport (including by download) under license exception ENC, except as follows:

- 1) Terrorist-Supporting Country Restrictions: The Applet may not be downloaded, exported or reexported to, or used in, Cuba, Iran, North Korea, Sudan or Syria.
- 2) Restricted Parties: The Applet may not be downloaded, exported or reexported to, or used by, persons or entities prohibited from receiving U.S. exports, including those involved in restricted weapons of mass destruction proliferation activities or those identified on the Denied Persons List, the Entity List or the Specially Designated Nationals List. (See <http://www.bis.doc.gov/index.php/policy-guidance/lists-of-parties-of-concern>)

**ForumPass Usage:**

ForumPass is intended as a collaboration service to bring multiple parties together to share information and to jointly develop new information. The service is intended for "information sharing", NOT long term "information storage". Users of ForumPass are reminded to exercise appropriate "standards of care" to keep account passwords and digital certificates safe. The full Terms of Access can be found at <http://www.exostar.com/about-1.aspx?id=912>

**ForumPass Restricted Service Notice**

You continue to be bound by the Terms of Access, and the terms and conditions of other agreements, to use the Exostar service. The Terms of Access can be found at <http://www.exostar.com/about-1.aspx?id=912>
